3/5/03	R02-01-011	Order Instituting Rulemaking regarding the implementation of the suspension of direct access pursuant to Assembly Bill 1X and Decision 01-09-060.
--------	------------	---

**Summary:** On March 3, 2002, Jeffrey P. Gray, counsel for the California Solar Industries Association, met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present were Juliette Anthony of Sun Power, Janice Lin of Powerlight, and Susan Stephenson of The Next Generation. Gray commended both the Lynch alternate and Peevey/Kennedy alternate for recognizing that, absent an exemption from exit fees for distributed solar generation, the policy initiatives of the Legislature to advance for further development of clean, renewable solar generation will suffer a major setback. With respect to the Lynch alternate, however, Gray noted that revisions were necessary to clarify and unambiguously exempt all customer solar generation from exit fees. Lin discussed the significant adverse impact the proposed decision, or any decision that does not exempt all customer solar generation from exit fees, would have on the solar industry. Anthony described the many benefits customer solar generation provides to all ratepayers. Stephenson stated that exit fees on customer solar generation would undermine the many legislative initiatives encouraging investment in solar generation.

3/6/03	R01-05-047	Order instituting rulemaking on the Commission's own motion to determine whether baseline allowances for residential usage of gas and electricity should be revised
	A03-01-019	Southern California Edison Company (U 338-E), for authority to lower and adjust Retail Electric Rates for all customer classes upon completion of Full Recovery of Procurement Related Obligations Account

(PROACT).

**Summary: AUGMENTATION REQUIRED.** On March 5, 2002, Nettie Hoge of The Utility Reform Network (TURN), met with Cmmr. Kennedy in San Francisco. Also present were Michel Florio, Matthew Freedman, Marcel Hawiger, and Mindy Spatt, for TURN. A chart showing the relative rate increases for each customer class was used. Freedman and Florio noted the absence of any residential rate decreases in Southern California Edison's (SCE) application for the establishment of post-PROACT rates. Freedman and Florio urged the Commission to support rate relief for SCE's residential customers proportional to the rate increases they received in 2001 and expressed concerns about the increases that would be experienced by some residential customers under SCE's proposed elimination of tiers 4 and 5. Freedman also expressed concerns that the Commission may require the revenue reductions associated with changes to residential baseline allowances to be added exclusively to the responsibility of the residential class. Freedman argued that this outcome would be unfair in light of the current allocation of undercollections associated with direct access exit fees to all customer classes.
